I received the below e-mail and attachment from DC Water's Interim Executive Vice-President, Office of Legal Affairs. I'm not sure who should respond. They are basically requesting to be involved in the trash TMDL development process and for EPA to schedule a meeting with appropriate stakeholders.

**Subject:** Anacostia River Watershed - Development of a New Trash TMDL

Ms. Adair,

DC Water is committed to supporting a Trash TMDL for the Anacostia Watershed that is reasonable and technically defensible. The attached letter addresses the Trash TMDL suitability issues we discussed in our October 23, 2018 letter and provides a proposal that will address these challenges for the development of the Trash TMDL. We look forward to working with you and the other stakeholders to discuss these issues.

**Subject:** RE: EPA's Solicitation for Trash Data in the Anacostia Watershed

Hello Mr. Ray,

Thank you for your response to EPA's request for trash data within the Anacostia watershed. We appreciate your input and will reach out with any questions after we've reviewed the data.

Thank you,

*Jillian Adair*

**Subject:** EPA's Solicitation for Trash Data in the Anacostia Watershed

Dear Interested Anacostia Trash TMDL Stakeholder:

You are receiving this e-mail because you or someone from within your organization submitted comments to the U.S. Environmental Protection Agency (EPA), Maryland Department of the Environment (MDE) and/or the District of Columbia Department of Energy and the Environment (DOEE) regarding the total maximum daily load (TMDL) for trash in the Anacostia Watershed, which was published for public comment in 2010. EPA is seeking readily available data and information on debris/floatables/trash (hereafter referred to as "trash") in the Anacostia River watershed for use in the development of a TMDL for trash. On September 21, 2010, EPA approved a trash TMDL for the Anacostia River submitted jointly by MDE and DOEE. On September 19, 2016, the Natural Resources Defense Council (NRDC) filed suit in the U.S. District Court for the District of Columbia seeking vacatur of EPA's approval [Civil Action No. 16-1861 (JDB)]. The Court ruled in favor of NRDC on March 30, 2018 and directed EPA to develop or approve a replacement TMDL. EPA would appreciate your assistance in obtaining readily available data and other information that would inform the development of TMDLs for trash impairments in the Anacostia River watershed. Data submissions to EPA must be received by, or postmarked on or before, October 23, 2018. Please refer to the Federal Register notice for more information: <https://www.federalregister.gov/documents/2018/08/24/2018-18410/anacostia-river-watershed-data-solicitation-in-support-of-revising-total-maximum-daily-loads-for>

Thank you,

*Jillian Adair*
